

10 ZONE

A FRESH LOOK AT DOING BUSINESS

ABOUT US

10 Zone is a spinoff from 10 Leaves, a boutique consultancy that focuses on providing services to firms registered in the DIFC and ADGM.

10 Zone differentiates itself in offering a full range of consultancy services for companies that do business in the United Arab Emirates. Starting from company formation, we offer a complete boutique of services encompassing all aspects of conducting your business operations.

Company formation itself is a complex process, as it involves making the all-important decision on selecting the jurisdiction to base the business. There are over 40 free zones spread over seven emirates in the UAE, and one can also set up in the mainland.

The choice of jurisdiction depends on a variety of factors, some of them being:

- a) The nature of business;
- b) The initial requirement and budget;
- c) The client that you want to cater to;
- d) The mode of operation; and
- e) The expansion plan.

We don't just help you set up your business – we help you plan the structure depending on your requirements, and then help you execute your strategy.
